

Annual Seminar of the Department of Computer Science

Posted : 22 December 2017

The Annual Seminar of the Department of Computer Science titled "**Enterprise Digitisation and Cyber Security**" was held on **21/12/2017** and the resource person was Dr. Dave Chatterjee. This year the seminar was organised in association with the Department of Information Technology, the Academic Council and the IQAC of the College. Dr. Chatterjee is a tenured Associate Professor, in the MIS department, at the Terry College of Business, The University of Georgia (UGA). Being an accomplished scholar, technology thought leader and an excellent orator, he effortlessly guided the audience through the nuances of Enterprise Digitisation and Cyber Security. He explained the importance of digital security in an organisation and the execution of the same depends upon the alacrity of the employees of all levels of an organisation. The seminar was extremely engaging and interactive and was attended by 30 faculty members of various departments of the College.
